

Please don't deregulate!

Dear Mr. Powell and fellow Commissioners: Please do not deregulate FCC media ownership rules. Since the last deregulations were implemented (in 1996) the resulting concentration of the broadcast media have homogenized content and severely reduced the diversity of programming on radio and TV, eliminating many independent, non-commercial and locally-oriented voices. The Public airwaves and print media are already compromised by corporate domination, and changing the rules for the benefit of the wealthy few, so they can further maximize profits is inexcusable.

Sincerely,

Bret Poyser
